COM 5110 Random Processes for Communications
(通訊之隨機程序)
<u>Spring Semester 2017</u>

Instructor: 祁忠勇 (Chong-Yung Chi), Office: Room 966, Delta Building
Tel: 5731156 or 5715131 X31156,

E-mail: cychi@ee.nthu.edu.tw

http://www.ee.nthu.edu.tw/cychi/

This is a basic introductory course of random processes including discrete-time random sequences and continuous-time random processes and applications in *Communications,* and S*ignal Processing* which are **__essential__** to analyze and design communications systems and signal processing algorithms. This course is suitable for senior undergraduate and first-year graduate students who would like to pursue communications and signal processing related researches.

<u>Units</u>: 3
<u>Lectures</u>: W3, W4, R3, R4,
<u>Classroom</u>: Delta 209
<u>Prerequisites</u>**:** Probability Theory, Signals and Systems

Outline:

1. *Review on probability, random variables and statistics:* Probability; Discrete random variables; Continuous random variables; Functions of random variables and their distributions; Fundamental of statistical data analysis; Distributions derived from the normal distribution

2. *Transform methods, bounds, and limits:* Moment-generating function and characteristic function; Generating functions and Laplace transform; Inequalities, bounds, and large deviation approximation; Convergence of a sequence of random variables and the limit theorems.

3. *Random processes:* Random processes; Spectral representation of random processes and time series.

4. *Statistical inference:* Estimation and decision theory; Estimation algorithms.

5. *Advanced topics in random processes:* Filtering and prediction of random process.

Grading:

Homework: 20%, Midterm Examination: 40% and Final Examination: 40%

Midterm Examination: **to be determined**

Final Examination: **to be determined**

Office Hours: **to be determined**

Teaching Assistants:

Name: Yo-Yu Lin (林祐宇)

Office: Room 706, EECS Building

e-mail: linyoyu0422@gmail.com

Tel: 0981809117

Office hours: Wed.15:30~17:30

Fri. 13:30~15:30

Name: Terry Cheng (鄭皓天)

Office: Room 706, EECS Building
