## THz Experimental Assistant

### PROFILE

---

- Educated with electrician ability for 4 years.
- Using microprocessor (Arduino) in controlling device.  
(Air drone glove controller, Music interactive installation, etc.)
- Design human machine interface program like PLC to control machine Efficiently.

### EXPERIENCE

---

#### UNDERGRADUATE STUDENT

#### **Ubiquitous Computation Lab, Yphuang (2016)**

- Six-axis sensor controlling gloves of quadrotor (done)
- FSR baby bed concept (not performed)

#### ASSISTANT ENGINEER

#### **Intern in Rapidtek (2017)**

- RF Switch Box code analysis to perform customization.
- Topic about RF switch, Create item model tool for Rapitek, Warehouse management learning

### AWARDS

---

- President's Award for 6 semester (4 first places & 2 third places)
- Independent Study Exhibition of Department of Electrical Engineering (Excellent)

### EDUCATION

---

#### **National Tsing Hua University, Hsinchu, Taiwan**

Department of Electronic Engineering (2017 - present)

#### **National Taipei University of Technology, Taipei, Taiwan**

Department of Electrical Engineering (2013 - 2017)
